

## Deep End

Lykke Li

Wait up, don't wanna wait up for you, baby  
Still I wait up, lonely in the canyon  
No love, there's no love, reflecting in the glow of  
Million dollar man

Show me your cut, baby, come clean  
Come out of your smokescreen  
If you really love me  
Open my eyes, bae, you burned me  
Your kiss is salty chlorine

Swimming pool, swimming pool  
Swimming pool, swimming pool  
Indigo, deep blue, deep blue  
Ooh, baby I know where you've been  
Know where you been, in the deep end  
Swimming pool, swimming pool  
Swimming pool, swimming pool  
Indigo, deep blue, deep blue  
Ooh, baby I know where you've been  
Know where you been, in the deep end

Hold on, don't wanna hold on  
If you let go, I can't go on  
It takes two to dance

Show me your cut, baby, come clean  
Come out of your smokescreen  
If you really love me  
Open my eyes, bae, you burned me  
Your kiss is salty chlorine

Swimming pool, swimming pool  
Swimming pool, swimming pool  
Indigo, deep blue, deep blue  
Ooh, baby I know where you've been  
Know where you been, in the deep end  
Swimming pool, swimming pool  
Swimming pool, swimming pool  
Indigo, deep blue, deep blue  
Ooh, baby I know where you've been  
Know where you been, in the deep end

I'm in it, I'm in it  
I was only gonna touch ya, now I'm in it  
I'm in it, swimming in it  
I wasn't gonna love you now  
I'm so fucking deep in it  
I think I feel another wave, another wave  
I'm diving in, I'm diving in it anyway  
I'm in it, I'm in it  
I was only gonna touch it now  
I'm in it

Swimming pool, swimming pool  
Swimming pool, swimming pool  
Indigo, deep blue, deep blue

Ooh, baby I know where you've been  
Know where you been, in the deep end  
Swimming pool, swimming pool  
Swimming pool, swimming pool  
Indigo, deep blue, deep blue  
Ooh, baby I know where you've been  
Know where you been, in the deep end
