

# Heart of Steel

Lykke Li

Oh heart of steel, don't kill thy song  
That sings so we, can heal the harm inside  
Don't leave me stranded, don't leave me alone  
Don't me leave me dying, without a lover to hold

Oh my heart, don't break the promise  
Every time I pay the price  
For a heart that can't be broken, oh  
Oh heart of steel, you reel me in  
Oh heart of steel, I can't let you win

Don't run, don't hide,  
Don't fight when I finally find  
A hand to hold, a song that clings with mine  
Don't leave me stranded, don't leave me alone  
Don't leave me dying, with out a lover to hold

Oh my heart, don't break the promise  
Every time I pay the price  
For a heart that can't be broken, oh  
Oh heart of steel, you reel me in  
Oh heart of steel, I can't let you win

Every night I feel you burning  
Every night I hear you calling  
Every night it's only you and I

Oh heart, don't break the promise  
Every time I pay the price  
For a heart that can't be broken, oh  
Oh heart of steel, you reel me in  
Oh heart of steel, I can't let you win  
Oh heart of steel, you reel me in,  
Oh heart of steel, I can't let you win.
