

Melodies & Desires

Lykke Li

Follow these instructions
Do exactly as I do
Lean your shoulders forward
Let your hands slide over to my side
Move your body closer
Let your heart meet mine

Love is the harmony
Desire is the key
I was the melody
Now sing it with me

Come a little closer
Take a look at me
This light is so obvious
I want you to see

Come a little closer
Look me in the eye
Then repeat with me
One more time

Love is the harmony
Desire is the key
Love is a symphony
Now play it with me

Love is the harmony
Desire is the key
Love is a symphony
Now play it with me

You'll be the rhythm and I'll be the beat
You'll be the rhythm and I'll be the beat
Then I'll be the rhythm and you'll be the beat
And love, the shoreline, where you and I meet

You'll be the rhythm and I'll be the beat
You'll be the rhythm and I'll be the beat
Then I'll be the rhythm and you'll be the beat
And love, the shoreline, where you and I meet

Love is the harmony
Desire is the key
Love is a symphony
Come, sing some with me
