

Silver Line

Lykke Li

Don't wake the dreamer
Don't shake the axis
Be faith, I Need it
I pray I believe it

Never let the darkness leave us
If you can't I'll be the dreamer
Be the night and I will be your shining light

I'm your silverline, only you will find
Silverline, I'll save you every time

Don't wake the lover
The spell I'm under
Be grace. I need it
I pracy I believe it

Never let the darkness leave us
If you can't I'll be the dreamer
Be the night and I will be your shining light

Silverline, only you will find
Silverline, I'll save you every time

Don't burn my hope, don't the moonlight leave
I shine for him, don't wake the dreamer
Don't burn my hope, don't the moonlight leave
I shine for him, don't wake the dreamer

Silverline, only you will find
Silverline, I'll save you every time
Silverline, only you will find
Silverline, I'll save you every time
I will save you every time
I will save you every time
