Babes In The Woods

Babes in the woods Oh which way to go Babes in the woods No one to say no Pretty people come to me Cry your heart all out Tell me what it's all about

Who remembers Kerouac What was that all about Right on Jack So long Jack Who remembers anything And who cares anyhow But here's to those still on the road And those on the road back

Babes in the woods Oh which way to go Babes in the woods No one to say no Pretty people come to me Cry your heart all out Tell me what it's all about

Pretty people hear me cry Cry my heart all out Tell me what it's all about Lyle Lovett
