

# Empty Blue Shoes

Lyle Lovett

Empty blue shoes  
And empty brown bottles  
It's the VW blues  
Bare feet to the floor

You just might die  
When you make colorado  
And the plains lie behind you  
Sweet Texas behind you

And your mother won't hold  
You forever  
And forever won't hold you for long  
And that girl with the face of  
An angel  
She's the girl with the face that's  
Long gone

Now those empty blue shoes  
They sit by the highway  
And those VW blues  
They saw 'em pulling away

You know she kissed me goodbye  
The last time I saw her  
But what she intended  
She never would say

And you lover won't hold you  
Forever  
And forever won't hold you for long  
And that girl with the face of  
An angel  
She's the girl with the face that's  
Long gone
