

# I Married Her Just Because She Looks Like You

Lyle Lovett

It's not the words  
You know I'll always love you  
It's not the words  
I wish that I could stay  
It's more the way your lips looked  
As you spoke them  
And how the moonlight fell upon your face  
I married her just because she looks like you

And for every time you said no  
She says honey I'll be glad to  
And for every time you left me  
She says darling I'll be there  
It's not the words  
You'll get over me  
That made my dreams come true  
I married her just because she looks like you

And if I had not searched for you  
I never would have found her  
And if I had not loved you  
I would never have known love  
It's not the words  
Please try to forget me  
That made my dreams come true  
I married her just because she looks like you

And for every time you knocked me down  
She reaches out to help me  
And for every time you cursed me  
She says darling I love you  
It's not the words  
Time heals everything  
That made my dreams come true  
I married her just because she looks like you
