

## The Fat Girl

Lyle Lovett

The fat girl  
She always stayed inside and played piano  
And she told her mother  
The children made her cry  
And her mother told her  
They don't mean it  
They don't mean it  
They don't mean it  
They don't mean it

Now the fat girl  
She ain't fat no more  
And lord how she plays piano  
And she sings loud  
And she sings low  
And she sings of love  
And blind passion  
But she don't mean it  
She don't mean it  
She don't mean it  
She don't mean it
