

## Love Finds A Way

Lynch Mob

I feel the days  
As they drift out into tomorrow  
And on their way, so far away  
There for me to follow

(all the way)  
As I wander all alone  
(all the way)  
Can't find my heart a home

Love finds a way  
Lights up the darkest hour  
Love finds a way  
Takes you to a better place

I keep the faith  
As I hear the talk that's around me  
Uncertain way, livin' day by day  
Always there to haunt me

(all the way)  
As the fortunes call my name  
(all the way)  
And the fear runs through my brains

Love finds a way  
Lights up the darkest hour  
Love finds a way  
Takes you to a better place

Love finds a way (repeat)
