

I Live To Love You

Lynn Anderson

Can't you tell by the look in these eyes of mine?
Can't you feel sweet warmth when your hand touches mine?
And then you kiss my lips; you can find it there too
So it's there anytime, and it's time you found out that I live
to love you
Just to know that you're near makes life seem so sweet
Things that once were just dreams are now so complete
You took my grey skies, and you painted them blue
And I want you forever, so don't leave me ever 'cause I live to
love you
Yes, I live to love you, and there's nobody who could ever ever
take the place of you
And it's so good to know that you love me too
So is love as I live I could want I could give 'cause I live to
love you
