

# I Used To Know All Those Things

Lynn Anderson

I used to know all those things like honeymoons and wedding rings  
The happiness that love can bring I used to know all those things  
The morning kiss and evening touch those hours of doing nothing much  
That special way a heart can sing I used to know all those things

Our happy home with love inside was leavin' soon and then to st  
ride  
Went dreaming room for foolish pride they too  
Once happy times were mine to know they seemed to be so long ago  
o  
But once upon a wedding ring I used to know all those things

Our happy home with love inside was leavin' soon and then to st  
ride  
Went dreaming room for foolish pride they too  
Those happy times I used to know they seemed to be so long ago  
But once upon a wedding ring I used to know all those things  
Oh once upon a wedding ring I used to know all those things
