We can make it the world is rough but we can take it Cause you're my shelter from the storm now I've got your love to keep me warm now

No temptation can ever shake our love's foundation We're strong enough to take it we can make it

Now we'll say goodbye to stormy weather

Safe within each other's arms we will spend our lives together

Love has found us and now its chain is wrapped around us

And no one can break it we can make it

Love has found us...

We can make it
