

# Ain't Too Proud To Pray

Lynyrd Skynyrd

I heard the voice and saw the face  
And I know he was there  
The robe it floated around my bed  
And I felt no pain

You can talk about the help you need  
He's a friend indeed  
Just open your heart and live again  
And he'll set you free

Well, he took them away  
All the troubles and the pain  
Whoa, you can call me a fool  
But I know he was there  
Yes, I know he was there

The night I had, has long since gone  
But the memories stay  
And now Mr. Trouble when you come my way  
I'm not too proud to pray

Yes, he took them away  
All the troubles and the pain  
Whoa, you can call me a fool  
But I know he was there  
Yes, I know he was there

Well, he took them away  
All the troubles and the pain  
Whoa, you can call me a fool  
But I know he was there  
Yes, I know he was there

The night I had, has long since gone  
But the memories stay  
And now Mr. Trouble when you come my way  
I'm not too proud to pray
