

## How Soon We Forget

Lynyrd Skynyrd

Every time I think I got it all figured out  
Then I draw a blank and my whole world crashes down  
So many people have got it worse than me  
But that could change tomorrow, ain't no guarantee

How soon we forget to count every blessing  
If you think you got it bad, take a look around  
How soon we forget, life is one big lesson  
Still we make the same mistakes time and time again  
And how soon we forget

Got a friend of mine who says he's run all out of luck  
But he'll be fine 'cause he just ain't drunk enough  
The world is empty when you're slammin' those shots down  
How can you be happy, son when the Devil's hangin' 'round?

How soon we forget to count every blessing  
If you think you got it bad, take a look around  
How soon we forget, life is one big lesson  
Still we make the same mistakes time and time again  
How soon we forget, how soon we forget

Just remember, thank God you're here today  
If you got the will you can find a way, oh  
How soon we forget, oh baby, oh

How soon we forget to count every blessing  
If you think you got it bad, take a look around  
How soon we forget, life is one big lesson  
Still we make the same mistakes time and time again  
Well, there's a message to this madness here my friend  
Will we ever learn before the story ends?

Soon we all forget, how soon we forget  
Soon we forget, oh  
Well, take a look around and you will see  
Soon we all forget, oh, oh

So many people have got it worse than me  
Oh, can't you see how soon we all forget?
