

Michelle

Lynyrd Skynyrd

Michelle, little girl I need you baby
More than the air I breathe
My love for you grows stronger babe
My words you must believe

Well I need to see you laugh again
And I want to see you smile
Michelle, little girl I love you baby
You're my only child

Michelle, little girl the pain for you
Is hurting me inside
At night I think of you sometimes
I lean my head and cry

I need to see you laugh again
And I wanna see you smile
Michelle, little girl I love you baby
You're my only child

Michelle, little girl I need you baby
More than the air I breathe
My love for you grows stronger babe
My words you must believe

I need to see you laugh again
And I wanna see you smile
Michelle, little girl I love you baby
You're my only child
