

It Takes a Muscle

M.I.A.

Now the fear got in me
It's got in me deep
It's where it's gonna stay and never leave.
Someone come lay my worry
Someone come kill my pain.
Someone come and put me on my feet again.

It takes a muscle to fall in love
It takes a muscle to fall in love
It takes a muscle to fall in love
It takes a muscle to fall in love

We gotta love one another
That's what the good man says
But i got too much trouble
Going on in my head
Someone come and pick up my love
Take it all away
Cause I could break down tomorrow
If I don't die today

It takes a muscle to fall in love
It takes a muscle to fall in love
It takes a muscle to fall in love
It takes a muscle to fall in love
Ay
