

## Imported Society

M.O.D.

They came from the other side  
In bunches at a time  
Crowding up the neighborhood  
To raise the rates of crime

Some of them got money  
Most of them got shit  
All they do is come here  
To take from our pockets

Import, import, imported society  
Import, import, imported society  
Import, import, imported society  
Import, import, imported society

Don't you fucking see  
That you bother me  
Genocide  
You can't hide

So go home now  
Don't come back  
Take your goat  
Get on your boat  
I hate imports  
I don't want to hear their shit  
I hate imports  
Cause I'm just so sick of it

I just want to  
Live my life without you fucking assholes  
And I want to  
Never see your ass again

Import, import, imported society  
Import, import, imported society  
Import, import, imported society  
Import, import, imported society

Hindus and Ethiopians  
You know they're all the same  
A huck a buck of Indians  
They're all so fucking lame
