M People

Raining, raining, raining, rain in sugar town  
Raining, raining, raining, rain in sugar town

A new day dawns across the tracks  
Tile by tile the chimney stacks  
A city steeped in history  
But so much pain and misery

Rain on me, rain hard and long  
Faith of our fathers makes 'em strong  
Rain on me, rain hard and long  
Rain down on the place that I belong

'Cos it's just another night in sugar town  
And the rain is falling down in sugar town

"I'm alright", I say to Jack  
"Just get this monkey off my back"  
Sugar town in urban light  
People got no cash and it don't seem right

Blue light fever, downtown crash  
One man's treasure, one man's trash  
Rain on me, rain hard and long  
Rain down on the place that I belong

'Cos it's just another night in sugar town  
And the rain is falling down in sugar town

'Cos it's just another night in sugar town  
And the rain is falling down in sugar town

I don't ask a lot, all I want is one good shot  
I don't ask a lot, all I want is one good shot  
I work and work, prepare myself  
Wait all my life and lose my health  
From a file to the brain cold steel more rain  
Rain, rain, rain

Raining, raining, raining, rain in sugar town  
Raining, raining, raining, rain in sugar town

Muscle man with bully boy plan  
Catch us baby if you can  
Streets of gold, oh streets of gold  
Asleep on concrete, feels so cold  
Rain on me, rain hard and long, rain  
Rain on me, rain hard and long, rain

Raining, raining, raining, rain in sugar town  
Raining, raining, raining, rain in sugar town

Raining, raining, raining, rain in sugar town  
Raining, raining, raining, rain in sugar town

Rain on me, rain hard and long, rain  
Rain on me, rain hard and long, rain

Rain on me, rain hard and long, rain  
Rain on me, rain hard and long, rain

Raining, raining, raining, raining  
Raining, raining, raining, raining
