

## Good News

M. Ward

When I forget how to cry  
I see you out alone at night  
My heart explodes in light in sky  
And I want to close my eyes

When I forget how to give  
I see you out alone with him  
His heart explodes in light in sky  
And I want to close my eyes  
And I want to say  
And bring good news to you

When I forget how to try  
I'm wide awake alone at night  
My heart explodes in light in sky  
But I have to close my eyes  
And I want to say  
And bring good news to you
