Hold Time

M. Ward

You were beyond comprehension tonight But I understood I understood If only I could hold time Hold time Hold time

Words have failed me tonight, failed me tonight But you knew what I meant You knew what I meant Yeah, you heard what I said the whole time The whole time The whole time

And I wrote this song about it Cause I didn't care about anyone in this photograph Yeah, I wrote this song just to remember the endless, endless s ummer in your life Endless summer in your life
