

Don't Mess With My Love

M2M

I thought you were a friend of mine but I was wrong
You tried to fit into the arms where I belong
You moved right in behind my back
Everyone knows friends don't do that

I thought you were somebody I could trust
You always said you were happy for us
How could you go and break my heart?
When you knew all along he was mine from the start

He is everything to me
And you know we're meant to be
He's my baby
Don't mess with my love
Take everything I own
Ooh just leave that boy alone
He's my baby
Don't mess with my
Mess with my love
Don't mess with my love

You came right over and looked in my eyes
You said the stories were rumors and lies
And I wish I could believe in you
But I'm sorry to say he told me the truth

He is everything to me
And you know we're meant to be
He's my baby
Don't mess with my love
Take everything I own
Ooh just leave that boy alone
He's my baby
Don't mess with my
Mess with my love
Don't mess with my love

Friends don't do what you do
There's no excuse
I'm so confused
I thought you cared about me
But now I see
All you care about is you

He is everything to me
And you know we're meant to be
He's my baby
Don't mess with my love
Take everything I own
Ooh just leave that boy alone
He's my baby
Don't mess with my
Mess with my love
Don't mess with my love
