

My Love For You

Maanam

I love you, my love, I love you
I love you, and my love for you
is a glade
hidden deep in the forest
I love you, my love, I love you
I love you, and my love for you
is an orchard
drowsy and warm

I love you, and my love for you
is goodbye and hello
and then the bells are ringing
I'm on fire
I love you

I love you, my love, I love you
I love you, and my love for you
is your gaze
gently blazing
I love you, my love, I love you
I love you, and my love for you
is this yearning
everburning

I love you, my love, I love you
I love you, and my love for you
is your touch
soft sensation
I love you, my love, I love you
I love you, and my love for you
is this night
of sleepless dreaming
