

Moving Like Mike

Mac DeMarco

Take a step to the left and you're alright, got the snake skins
on
Another step to the right in the moonlight, shake it all night
long

You really gotta let it all hang loose when you're moving like
Mike
You really gotta let me shake my boots when you're moving like
Mike
So come on baby, let it all hang out when you're moving like Mi
ke
So come on baby, let me hear you shout when you're moving like
Mike

Dipping down to the slow spotlight, baby, take my hand
Another step to the right in the moonlight, baby, I'm your man

You really gotta let it all hang loose when you're moving like
Mike
You really gotta let me shake my boots when you're moving like
Mike
So come on baby, let it all hang out when you're moving like Mi
ke
So come on baby, let me hear you shout when you're moving like
Mike

You really gotta let it all hang loose when you're moving like
Mike
You really gotta let me shake my boots when you're moving like
Mike
So come on baby, let it all hang out when you're moving like Mi
ke
So come on baby, let me hear you shout when you're moving like
Mike
