

Life's a Bitch

Mac Dre

Bitch

Life's a bitch

Life's a bitch and then you die

Life's a bitch and then you die

Lifes a bitch and then you die

Lifes a bitch and then you die

It's not often young niggas get a chance

To enjoy riches in legitimate fashion

So many of us say fuck it get a bucket

And run up in something and keep smashing

It's all about survival

But jealous rivals make it hard for us to do this

So everybody got a gun but when we was younger

Our only weapon was our two fists

Now who missed the first lesson in life don't be no punk

If you a man have heart be a savage whether you sober or drunk

I seen niggas in the pen getting

Their ass dug out over some hop or a pack of Kamels

But that's the game home boy and every move you make is a gamble

Them squares don't under stand so it takes niggas like me to explain it

I show vengeance violence and hatred because underneath it's so much pain

I ain't no sissy or punk so don't trip when you see me crying

A nigga just hella mad his partners is dead and his folks keep on dying

My enemys feel the same way they want me dead they think I'm the nigga

That put they partner 6 feet under and left his son with no father figure

I live day by day not giving a fuck and when they ask me why

I pause for a minute then I reply because lifes a bitch and then you die

Lifes a bitch then you die nigga

Don't want a whole slice just let me taste the pie

They sent me to the pen for five years

For a crime that was never committed

I ain't no bank robber but that five years

Had me thinking maybe I should have did it

Do my thoughts deceive me? What a mutherfucker supposed to think

Locked down trapped looking at four walls a toilet bowl and a sink

Ain't that a bitch I've been struggling ever since I could remember

But I stay strong year round from January all the way to December

See I am a hustler I need cash bad as a fat bitch need jogging

So I specialize in three things and that's

Pimping hogging and dogging (that's right)

Half these suckers walking around here fake as three dollar bills

If you with that bullshit don't come around me

I do this for reals not for thrills

I got to watch my back for them suckers that's out to do harm

Got a tattoo of a list full a partners

That's dead that run all the way down my arm

So If you see me mugging tripping and bugging don't stop and ask me why

A nigga just hella mad because Lifes a bitch and then you die

I got a crew full of the realest that's deep as the Pittsburgh Steelers

Retired bank robbers ex-dope dealers and adversary killers

Our mission is simple get rich and stay real nigga

So our kids can live fat better then we did when we was little niggas

Life is short you only live once and ain't no telling when your leaving

So I'm going to do it all have a ball

While I'm still living and breathing
See I am a philosopher and my philosophy is this
Don't be no punk young homey if it's worth it take that risk
Anything's possible but nothings for sure
Got to take advantage of all opportunities
And get your money you know
Love those who love you but don't never let it fuck up your vision
How much love did your loved ones
Have when you was broke or doing time in prison
Stay on your toes don't fuck with hoes before you read them
Watch your back for them rats that set niggas up to keep they freedom
It takes 365 days for the earth to spin one time
But it only takes one minute
For that guilty verdict when that snitch drops that dime
A damn shame I thought rat heads get nothing but cheddar
But I got partners doing all day with 35 next to that letter
So I'm in trouble unless I bubble So I struggle to keep my peace
Staying money motivated with thoughts of Mike Robinson and D.J. Cee
