

Black Rainbow

Mac Lethal

I will soothe your pain
That's what I say
I will ease your strains
But in real, but in real life
I got nuthin for you uh, uh
Nu, nu, nuthin for you

Uh, A black rainbow,
Angel with a cracked hallow
I'll make you mine but you ain't taking up my last name though
God damn your smile is bloody uh
I guess I'll fuck you on a pile of money, Uh
You got the swagger of a woman with a dagger
And a crooked demeanor
But nah, I ain't lookin for neither
But I just love to watch you scratch your nails on the hood of your beamer
When I open you and push on the eather

I will soothe your pain
That's what I say
I will ease your strains
But in real, but in real life
I got nuthin for you uh, uh
Nu, nu, nuthin for you
But in real, but in real life
I got nuthin for you to gain

Black rainbow, funeral, eclipse...
Black raincoat, beautiful, deep kiss...
Taste like DMT
Digging your bf a grave site secretly, secretly
Watch the stage lights secretly
Leave with me
In the grey night creep with me
I must, have an affinity for sick disease
Cause this affair is fucking
HIV to me
Alcoholic red wine
Aderal at bedtime
Make it so I have to call you next time
I just don't feel right every time I get you out your black gown
Your boyfriend's is textin in the back ground
God damn, you got the swagger of a woman with a dagger
That just stood under a ladder
Holding 13 black cats
And took each one threw it at a mirror till it shattered to the floor
My irises are blacker than before

I will soothe your pain
That's what I say to her
I will ease your strains, yea
But in real, but in real life
I got nuthin for you
Uh, uh
Nu, nu, nuthin for you
But in real, but in real life
I got nuthin for you to gain

Nuthin at all...

Yo, Black double rainbow
O God it's luminescent
Are we being stupid?
That's a stupid question
I 'm just lookin at the diamond on your finger
Just Remembering the fact that I ain't buy it for you either,
But in real life
You make me feel like a slut
So I'm a make you kneel like I'm tut
Bow to me
Like a God
Cause this dude loves you like the goddess that you aren't and your with me
You should be proud truly
Actin like it's such a special occasion
Actin like it's such a clever liaison
I think you got the devil emblazoned
Under the fabric of your negligée
The way you look at me
It's like your practicing for wedding day
But in real life
He loves you
I don't even fucking know you
Wait a second; I should say that to myself again
He loves her
But he don't even know that you exist
So say goodbye
Blow her one more kiss
You wouldn't give crack to a crack addict
So try to be a little pragmatic
You should go find something true
Stop being taboo
Tell the dude the same exact thing too

I will soothe your pain
I will ease your strains, uh
But in real, but in real life
I got nuthin for you
But in real, but in real life
Nu, nu, nuthin for you
Uh, But in real, but in real life
I got nuthin for you to gain
Uh, But in real, but in real life
But in real ass life uh
