

## In the Air

Mac Miller

I don't think they know it yet, but I do, I do  
And if you fuckin' with it then you my dude, my dude  
We always down to dap or give a pound to those who got their thumbs i  
n the air

Hey, everything good right now  
Little bit of money make your boy ride down  
Thinking I could probably figure out my style on a stage  
Looking at a big high crowd  
They go insane when I run out the stage  
Cause we don't give a fuck, don't need to act our age, hey  
When I'm old I'ma spend my days, layin' with my girl on the beach in  
the shade  
Have every single thing I can name  
Thank god everyday I don't sleep in the rain  
Blessed with some success so I'ma try my best to  
Live my life right, when I see God he'll be impressed 'cause  
I've been on my grind, thinking I'll be fine if I take my time  
Working so hard I might break my spine  
So all yall goin' see this face of mine  
There's different ways to shine  
I'ma find my own, know when I disappear  
I'ma find my way back home 'cause...

I don't think they know it yet, but I do, I do  
And if you fuckin' with it then you my dude, my dude  
We always down to dap or give a pound to those who got their thumbs i  
n the air

Days go by and I think that I  
Maybe going crazy, maybe loose my mind  
Looking at a constellation  
Me and God have a conversation  
Got a nine sorry about the lingo  
Just kick it in the cut playing bingo  
I be all over the beat like Ringo  
Look sweet honey bee gonna sting though  
I'm here, wanna do my thang  
You can roll no matter who you bring  
Like your wifey wanna loose that ring  
I don't pay her no mind, I just want, I just want, I just want the pa  
per  
Bring the games a little more flavor  
Say wat up, take a flick with a hater  
Throwing a deuce like see you later,  
That's funny, all I really want is a little cash money  
Then life is gonna be so sweet, nah it ain't a hotel, nah it ain't a  
hotel,  
I'm next, shhhh, don't tell

I don't think they know it yet, but I do, I do  
And if you fuckin' with it then you my dude, my dude
