

## My Favorite Part

Mac Miller

Don't know why thinking of him makes me smile

Said, you just don't know how beautiful you are  
And baby that's my favorite part  
You walk around so clueless to it all  
Like nobody gonna break your heart  
It'll be alright babe, see, me, I got you covered  
I'm gon' be your lover, you might be the one  
If it's only tonight, ayy, we don't need to worry  
We ain't in a hurry, rushin' into love

Said, you know I know who you really are, ain't need to lie  
Said, the universe couldn't keep us apart, why would it even tr  
y?  
Yeah, said, don't let them hurt you ever, I know you far too sm  
art  
Before things come together, they have to fall apart  
It's been a while since I've been sober, this life can be so ha  
rd  
I'd rather talk about you

Said, you just don't know how beautiful you are  
And baby that's my favorite part  
You walk around so clueless to it all  
Like nobody gonna break your heart

It'll be alright babe, see, me, I got you covered  
I'm gon' be your lover, you might be the one  
If it's only tonight, ayy, we don't need to worry  
We ain't in a hurry, rushin' into love

If you wanna stay, we're taking it slow baby  
Cause you and me, and I got enough on my mind  
But I can make time for something so divine

Said, you just don't know how beautiful you are  
And baby that's my favorite part  
You walk around so clueless to it all  
Like nobody gonna break your heart  
It'll be alright babe, see, me, I got you covered  
I'm gon' be your lover, you might be the one  
If it's only tonight, ayy, we don't need to worry  
We ain't in a hurry, rushin' into love
