

My Favorite Part

Mac Miller

Don't know why thinking of him makes me smile

Said, you just don't know how beautiful you are
And baby that's my favorite part
You walk around so clueless to it all
Like nobody gonna break your heart
It'll be alright babe, see, me, I got you covered
I'm gon' be your lover, you might be the one
If it's only tonight, ayy, we don't need to worry
We ain't in a hurry, rushin' into love

Said, you know I know who you really are, ain't need to lie
Said, the universe couldn't keep us apart, why would it even tr
y?
Yeah, said, don't let them hurt you ever, I know you far too sm
art
Before things come together, they have to fall apart
It's been a while since I've been sober, this life can be so ha
rd
I'd rather talk about you

Said, you just don't know how beautiful you are
And baby that's my favorite part
You walk around so clueless to it all
Like nobody gonna break your heart

It'll be alright babe, see, me, I got you covered
I'm gon' be your lover, you might be the one
If it's only tonight, ayy, we don't need to worry
We ain't in a hurry, rushin' into love

If you wanna stay, we're taking it slow baby
Cause you and me, and I got enough on my mind
But I can make time for something so divine

Said, you just don't know how beautiful you are
And baby that's my favorite part
You walk around so clueless to it all
Like nobody gonna break your heart
It'll be alright babe, see, me, I got you covered
I'm gon' be your lover, you might be the one
If it's only tonight, ayy, we don't need to worry
We ain't in a hurry, rushin' into love
