

# Youforia

Mac Miller

Take me to euphoria according to the story of a warrior  
Picturing my visions as you look inside my cornea

I've been waiting so long  
To get into her view by my side (to tell you I love you)  
I can't do no wrong when you are an angel  
With you by my side, you are my euphoria.

And when you look in my eyes the pain goes a-way, euphoria.  
You feel so damn good, (I want you to know that)  
Just come take my hand closer.  
We could go to the moon  
Look at my eyes as we land euphoria.

Now when you lay in my arms the pain goes a-way, euphoria.

(Euphoria)  
And when you're mine, I won't let you go.  
The pain, it can stay (like euphoria)
