

# That's Hip Hop

Mac

Say man, niggaz say no limit ain't hip hop.  
Man these old fake ass niggaz don't even know what hip hop is.  
Why don't you show 'em what hip hop is?  
I'm 'bout to show a nigga what hip hop is. nigga gimme a motherf\*\*kin' beat  
Or something nigga. motherf\*\*kin' clap or something.

Mac:

So uh, who's ya favorite rapper  
Do he really got skills  
Is he real  
Can he flow like this nigga who murda kills  
Is he a fool  
Or you like him 'cause his single was cool  
His video got bitches in bikinis hoppin' out the pool  
Is he complete  
Do he got tight lyrics and tight beats  
Do he write his own rhymes  
Do they sound like mines  
Is he one of these niggaz who's on  
Or is he just some other niggaz clone with no f\*\*kin' style of his own  
You probably like thugs  
You probably like to fight in the clubs  
You probably like him 'cause he talk about murder and drugs  
He's such a thug  
What if a nigga told you he lyin'  
Would he still be yo' #1 or would you change yo' mind  
Did you listen to his lp or just one of his songs  
Is he type that just go on and on about being the don  
Or what he drive, where he live at  
Tell him you don't wanna hear that  
You around and get jacked f\*\*kin' wit mac!

Mac:

So who he sound like  
Mystikal, makaveli, or bone  
Wu tang, nas, or jay z  
Man, niggaz are crazy  
Niggaz will steal yo' style and f\*\*k around be dissin' you  
Knowing you the main nigga they be listenin' to  
So what you like his voice  
What he make you moist  
I mean what  
Did he sign ya autograph when you met him  
Did he look at you strange and call his bodyguard like you was tryin' to  
Sweat him  
Did he try to f\*\*k? did you let him?  
Did he tell you he was diggin' you  
And after he f\*\*ked you he got rid of you  
Promised you he would send for you  
Let him penetrate ya  
Then you find out he ain't really got no paper  
Now ya saying he raped ya  
I know the game is tight, it's alright, it's so terrific  
What I write is so profilic when it's to a beat that I can live with
