

# Dracula

## Macabre

In the fifteenth century lived a prince of nobility  
His Father's nickname was Dracula, which means the  
dragon or the devil  
Dracula was the son of the devil or the dragon  
And he lived up to his name  
A name that goes on in infamous fame

Terrible atrocities  
Suffering and misery  
Vlad the Impaler inflicted on his enemies  
Excruciating painful torturous misery  
Vlad the Impaler imposed upon his enemies

They were Romanian stuck between the Turks and the  
Hungarians  
His Father Vlad Two tried to plea  
Bot of his neighboring adversaries  
With the ability to switch sides  
To the one with the upper and at the time  
For this reason his sons had to spend  
Four long years in a Turkish prison

It's not clear from history if his mind was twisted  
during captivity  
But Dracula was released when his Father Dracula was  
deceased  
And the when he was free  
Vlad became ruler of his country  
Vlad the Impaler was the name he procured  
For the hideous method of death he preferred

Vlad's favorite way of executing people  
Was impaling them on stakes and he watched them as he  
ate  
Upon the very pointed greased down stakes  
Vlad's enemies were placed killing them with their own  
weight  
Through their heart or navel or mouth and vagina or  
anus  
Is were the stakes were placed  
Vlad's terrifying stakes  
Having mass execution by impaling his enemies  
Suited Vlad III's tastes  
Witnessing their gruesome fate

Vlad's gruesome reign came to an end  
Provoking war with the Turks again  
In the Turkish territory Vlad's troops were routed  
eventually  
With his ghastly reputation Christian leaders wouldn't  
help Vlad with his altercations  
That's the reason for his defeat for what Vlad had sewn  
He soon would reap

When the sultan's troops came upon the forest of Vlad's  
impaled victims  
That slowed their advance for a while

Because of Dracula's killing style  
He was exiled and Vlad III  
Years later joined the Hungarian army  
In a war between the Turks Vlad was dead  
And to Constantinople they brought back his head
