

## Hot Rods to Hell

Macabre

Created in fire millions of years ago  
The planet earth as all we know  
Many days past since the beginning of time  
Now it's time to pay for all our worldly crimes

Hot rods to hell  
Hot rods to hell  
Greenhouse effect  
Greenhouse effect

Destroy the planet with our machines  
Fuckin' religion and government schemes  
We will die by our own hand  
The people who care can't even make a stand

Greenhouse effect  
Greenhouse effect  
Hot rods to hell  
Hot rods to hell

The greenhouse effect, nuclear waste  
Some of the products of human hate  
Computerized war  
No chance to survive  
We're counting the days  
We are going to be alive

Greenhouse effect  
Hot rods to hell  
Greenhouse effect  
Hot rods to hell
