

## Lizzie Borden

Macabre

Lizzie Borden axe murderess  
In American folklore the term was synonymous  
Se wake the maid who was napping in her bed  
As Lizzie yelled to the maide, father is dead!

Lizzie Borden took an axe  
Gaver her stepmother twenty whacks  
While on the couch her father slept  
She hacked him till no life was left

Her stepmother was hacked as she made the bed  
With father on the couch nine axe wounds to his head  
It seems that Lizzie would of had some motive  
And time to destroy incriminating evidence

Lizzie's alibi was very weak at best  
She was the mains suspect which led to her arrest  
Then they charged Lizzie Borden with the axe murders  
The slaughter of her stepmother and her father

And Lizzie Borden's trial was irrelevant  
Because the evidence was insufficient  
And even though she probably did it  
Lizzie Borden was acquitted
