

## The Ripper Tramp from France

Macabre

Sadistic killer Joseph Vacher has long been forgotten  
But compared to Jack the Ripper  
Joseph's deeds could be more rotten  
He joined the French army, but complaints from other men  
Sent him to the doctors for some observations  
He met a woman on sick leave that he had selected  
Proposed and had a temper tantrum when he was rejected  
Joseph shot the woman three times but she lived  
He shot his head and lived and made his face repulsive

CHORUS

The ripper tramp from France  
With his murder prance advance  
Upon his innocent victims  
Who never had a chance  
The ripper tramp from France  
Was in an evil trance  
Wandering around and killing  
Whenever he got the chance

Joseph was committed to an insane asylum  
They declared him cured in a year  
Then they discharged him  
So one month later he went out to fill his murder needs  
Became a tramp and committed atrocities  
He carried with him scissors plus a cleaver and some knives  
And mutilated victims as he roamed the countryside  
The doctors said that he was cured and so they set him free  
Which allowed the ripper tramp from France to do his evil deeds

(CHORUS)

From 1894 to 1897  
The repulsive drifting tramp killed and raped at least eleven  
A woman gathering pine cones caught Joseph Vacher's eye  
Her family heard her screaming or else she would have died  
Her neighbors and her family subdued the crazy man  
They overpowered Joseph and then dragged him to the inn  
Soon after he confessed to a lot of murdering  
They sentenced him to death and he was guillotined
