

# Under Stars

Amy Macdonald

In life you gotta find your feet  
In life you gotta dare to dream  
Don't worry  
We still love you  
You still feel it even when we're miles apart  
You're living under Stars and Stripes

In life you gotta spread your wings  
Don't worry bout the little things  
Keep fighting  
Keep trying  
We'll be here waiting on the other side  
Underneath the Stars and Stripes

This is your song, go write it  
Be who you are, don't hide it  
You've come so far  
Don't let it slip away

Under stars I'll be where you are  
Just call no matter how far  
Under stars no end to this road  
But on we go  
And still we roll

Hold my hand, we'll get there someday  
Nothing's set in stone until the end

This place is gonna set you free  
My love's the only love you need  
Do you feel it like I feel it?  
Cause I've traveled half the world tonight  
I'll find you under Stars and Stripes

This is your song, so write it  
Be who you are, don't hide it  
You've come so far  
Don't let it slip away

Under stars I'll be where you are  
Just call no matter how far  
Under stars no end to this road  
But on we go  
And still we roll

Under stars I'll be where you are  
Just call no matter how far  
Under stars there's no end to this road  
On we go  
On we go

Hold my hand, we'll get there someday  
Nothing's set in stone until the end

Nothing's set in stone until the end
