

And now I lay awake  
My eyes unclosed  
The firesnake superimposed  
On our barren world tonight  
Simple but supreme  
The dragon road  
Evil and mean  
I hear it soar not far above our world tonight

Now the immortal beast descends on me  
Prepares to feast my enemy  
is taunting me to fight  
Simple but supreme  
The dragon road  
Evil and mean  
I hear it soar not far above our world tonight

Nocturnal light and thunder blasting from the sky  
The beast is hunting for a prey that cannot die  
But this is how it's always been since the dawn of time  
And it will always be the dragon fury rhyme

An ancient beast that occupies the high above  
A raging monster to be fearful of  
Simple aggression purely spawned from mother earth  
A true impression of the might of her

Now descend from above  
Now descend from above

And now I lay awake  
My eyes unclosed  
The firesnake superimposed  
On our barren world tonight  
Simple but supreme  
The dragon road  
Evil and mean  
I hear it soar not far above our world tonight

Now descend from above
