

## War Angel

## Machinae Supremacy

Sound the rage of hell  
Battlecry, raise your army  
And take to the sky  
Somewhere, somewhere in heaven high  
Fire reigns tonight

War Angel lead our way  
Rise up and take this day  
War Angel seek your prey,  
Point to and we will slay

Fuel the fires of hate for us all  
We will have our justice or we will fall  
Somewhere, somewhere in heavens halls  
Fire reigns tonight

We needed to believe in something  
And so we believed in you

War Angel you betray  
Used us, used our pain

War Angel come and gain  
Blind we were lead astray

Onward to our new exile

We needed to believe in something  
But now do we see who you..

War Angel god of ours  
See who you truly are

War Angel fallen star  
Light bringer, morning star
