

Smile

Machine Gun Fellatio

Every time I see you smile
I forget what it was that I had to file
Under what it was I had to say

Hang on, let's start again...

Every time I see you smile
I forget what it was that I had to file
Under what it was that I
That I had to say
Every time I see you smile

Every time I see you in the corner
I get just a little bit more hornier

Every time I see your face
I forget what it is that I had to place
In the file
Under what it was that I had to say
Every time I see you smile

It's getting there...

Every time I see you smile
I forget what it was that I had to file
Under what it was
What it was I had to say
Every time I see you smile

And I don't know why you're happy
I just know it makes me glad

Every time I see you smile
