

Throw Me On The Bed

Machine Gun Fellatio

i've been sittin' on my own, dreaming of your fingernails
so i've been using my own while rehearsing my hips
i've got a bottle of beer and i'm a lon way from home
and it seems really stupid to be partying alone

look me in the eye & tell me it ain't wrong
throw me on the bed & love me all night long
throw me on the bed & love me all night
got myself a treat sweet rock & roll
throw me on the bed & love me all night long

now i've got it bad, that ain't good
unless you come & join me like you know you should
i've smoked a little dope & i'm feelin' pretty high
i ain't no imitator i'm just in disguise

look me in the eye & tell me it ain't wrong
slap me in the face if i'm bein' too strong
or you can hold me down & kiss me, i'll play along

throw me on the bed & love me all night
throw me on the bed & love me all night long
got myself a treat sweet rock & roll
throw me on the bed & love me all night
throw me on the bed & love me all night long
throw me on the bed & love me all night
got myself a treat sweet rock & roll
throw me on the bed & love me all night
