Bulldozer

Machine Head

Into the battles, making cages rattle
There's a pain that's inside us and we're letting it out
Charge right in, we dare to fail
No one is giving in, always we live to win
A hunger turns and burns inside of all of us
And it will not be denied

Walking a path untraveled to reach higher level Challenging always going against the grain Blood for blood - that is the rule And we will make the rules, never be fortune's fool There's right and wrong in almost everything we do For us we do what is right

Bulldozer feeds upon the weaker as they fall Bulldozer crushes all

Somebody told me I should do what they told me But there's a hole in that plan and I'm tearing it down Trust our guts, follow our hearts No one can break these nuts, these lips ain't kissing butts The path of most resistance tests all of our strength This strength will not be denied

Bulldozer feeds upon the weaker as they fall Bulldozer crushes all Bulldozer feeds upon the weaker as they fall Bulldozer crushes all

Walking on paths untraveled Challenging one and all Deeper into the battles Alone and standing tall The more evolving changes The more we stay the same Full steam against the odds Go headfirst against the grain

Full steam we go against the odds Headfirst we go against the grain

Bulldozer goes against the odds Bulldozer goes against the grain

Against the odds, against the grain We go against the odds, against the grain

This is the bulldozer This is the bulldozer
