

# I'm Your God Now

Machine Head

So pain told you to take her  
Well I learned to accept that feeling  
'Cause I found how to numb it  
If only for just a short while  
I'd get so high, I'd forget my own name  
I scarred my fist, I scarred my brain  
I think that I'm going insane  
I think that I'm going insane

So Drink up, so shoot in  
Why must this feeling end  
I crawled in my narcotic shell  
Was crucified in my own hell  
A gutter's where I found myself  
Among the waste I chose to dwell  
I chose to dwell

So now I'm in your system  
And I'm what helps you numb your pain  
With time you will confide in me  
So lonely my friend, I've made you lose control  
You'll use me more and more with time  
Our friendship grows with each mainline  
So glad that you could be so blind  
So glad that you could be so blind

So drink up, so shoot in  
'Cause I'll make this feeling end  
I built you this narcotic shell  
I crucifies you in your hell  
Your life not yours, you're just my slave  
I am your messiah of pain  
And time has come to  
Time has come to, time has come to  
There is no time to pray

'Cause I'm your God now
