

# Now I Lay Thee Down

Machine Head

I want to know  
How it feels  
When we die  
Can you take me under?

R: Dream over  
Grieve no more  
And breathe one last time  
Now I lay thee down

She watched me leave  
Me bleeding  
On the floor  
As she takes me under

R:

Godless mimicry  
White lights cemetery  
Flashes of the angel's ivory wings  
Images so many broke dreams  
Of pain  
Terror  
Fear  
Crippling

Follow the light into the tunnel  
Or will it end up in a black hole?  
Follow the light into the tunnel,  
Dead in its end

What is love?  
What is murder?  
Within the eye of the beholder

What have I done?  
I've gone and killed the only one I love  
How could I do this?  
I'm screaming at God  
Why do you curse me?  
Fuck it, load it, sever the day

R:

Now I lay thee down,  
Underground
