Mack 10

The guppies dup dup dup  
Dup dup dup  
Dup dup dup  
Dup dup dup

It's a feeding frenzy with guppies all around the edge  
Nigga if you tryna get fed you in the red  
Eat you up, beat you up  
If that don't work heat you up

Now you wearin' white, punk smellin' like Fahrenheit  
Niggas, fleas, ticks and parasites  
Tryna get a crumb off the turntable  
Stick your nose in my bowl it's fatal you Kane I'm Abel

Nigga you know we checkin' quotas and dollars  
Nigga you know the pecking order we follow  
Sayin' that we got to holla, if I can quote you  
But the king of the jungle never meet with the vultures

Never been a sucker never been fake, never  
Never tried to make all I can make , never  
Represent my niggas 'til the bow breaks  
But haters hate we can eat steak by the lake

The guppies dup dup dup  
The guppies dup dup dup  
The guppies dup dup dup  
The guppies dup dup dup

What a beautiful day, clear blue skies  
My murder ones block sun rays from my eyes  
Twistin' triple gold so I gotta pack heat  
Lay the titanium and flame up the street

Down the boulevard with my hand on trigger  
Fools hittin' me up like, "Who was that nigga?"  
Ruuff ruuff you know who it is  
Mack 10 punk top dog in showbiz

I cocks the revolver ready to start gattin' 'em  
But what I look like set trippin' and I'm platinum  
I hesitates put down the trey eight  
Keep pushing to the hood make sure my folks is straight

Outta control a nigga ballin' like Shaq  
Gave my momma money and slid the homies sacks  
And it's like that about the bank wad  
The more cheese ya got the more killas on ya squad

For the guppies dup dup dup  
The guppies dup dup dup  
The guppies dup dup dup  
The guppies dup dup dup

Okay we hollered fake ass hugs check my wallet  
Driving to the crib make sure no nigga followed

Called up the mighty one up, "What you wanna do?  
Turn these bitch niggas to snow, how many? 1 or 2? It's on you"

Westside battle cry my alibi first class  
Hella high when you die  
I'm changin' standard time with the yuppies  
But fuck them too and you, you askin' who?

The guppies brought Mack Manson back to life  
I kill niggas without a gun or a knife  
I gave the order, is he dead? Yep, enough said  
And all my followers got W's on they forehead

Murderers and they kill on command  
Walk around like zombies with Techs in each hand  
For Mack and the Don light you up like neon  
Freeze you like freon you fuckin' peons

The guppies dup dup dup  
The guppies dup dup dup  
The guppies dup dup dup  
The guppies dup dup dup

The guppies dup dup dup  
The guppies dup dup dup  
The guppies dup dup dup

Eat you up
