Boo

Macy Gray

He tends to get carried away
Like a talk show, he's got drama everyday
Lots of rage and mental abusing
The way he treats me, it's obvious he's confusing
Me for some dumb bitch who will stick around
I tend to stick around
You tell me that you love me, if it's true
Why am I runnin' from you and who are these bitches on my answering m
achine?
Yeah you, you tell me that you love me but boo
If this is love it's a good thing you don't hate me

Superfly (Superfly)
Someone who'll at least try
Who'll smoke me out from time to time and love me all night
Tell me everything about him
And none of it turns out to be lies
Easy rainbows
These words come to mind and he loves me all night
You tell me that you love me, if it's true
Why am I runnin' from you and who are these bitches on my answering m
achine?
Yeah you, you tell me that you love me but boo
If this is love it's a good thing you don't hate me

Never settle for the things that you don't really want
'Cause all it gets you is a big ol piece of unhappiness
Happiness could be mine but it's so hard to talk to you baby
One day I will
Some day I will and this is what I'll say
(Hey you, you, yeah you, wait)

Hold me close (Hold me close), 'cause I'm the most and make a toast t
o you and me (And me)
See that's the way love's supposed to be
Not stressful, alright
You tell me that you love me. if it's true
Why am I runnin' from you and who are these bitches on my answering m
achine?
Never settle for the things that you don't really want
(Yeah you, you tell me that you love me but boo)
'Cause all it gets you is a big ol piece of unhappiness
(If this is love, it's a good thing you don't hate me)
It's a good thing you don't hate me (It's a good)
If this is love how could this be? (How can this be?)
It's a good thing you don't hate me
If this is love (If this is love) how could this be? (How can this be
?)
It's a good thing you don't hate me
If this is love how could this be? (Who are these bitches on my answe
ring machine?)
It's a good... (Hey you...)
