

You must be smellin' cherries and strawberries  
and peaches and plums  
Roses and dandelions

Special lovin' on the night I spent with you  
It was the best that I've had lately  
But it didn't mean anything, yeah  
And I will be glad when you stop calling me  
Harry, don't wanna be your girlfriend  
But boy, when you want the lovin'  
Come and see me Harry

I, I, I swore my everlasting true in love to you  
Said that I need you, I want you, didn't I baby?  
But I was just kiddin' 'round, yeah  
And I will be glad when you stop calling my house  
Harry, don't wanna be your girlfriend (I don't wanna be your girlfriend)  
But boy, when you want the lovin' come and see me Harry  
And it's a shame Harry  
Cos you such a beautiful thing, Harry  
You tell me that you love and I bet you do  
But love's not my thing right now Harry  
All I wanna do is swing  
And when you're ready I'm here for you

Please Harry, stop calling me, Harry  
Harry, don't wanna be your girlfriend (I don't wanna be your girlfriend)  
But boy, when you want the lovin' (But when you want good love)  
Come and see me Harry (Come and see me Harry)  
Hey Harry  
That's good enough, for right now
