Screamin'

Macy Gray

Don't hear nothing but bad news lately, and all my family has gone crazy but I guess it don't matter since the work is gonna end. Gonna make a change at least I'll try to - will they notice whe n I do? And if I don't make it will you still be my friend? So baby tell me when I'll see you again it'll all be better.

All of my troubles they go away when you're on top of me loving me down, making sounds and it's so good I am screaming.

Make you wanna throw your hands and holler, crying cause I miss my father when will we get out the mess we're in? all I want to do is reach the sky don't want to have to die to do that Where on earth is my heaven? So baby tell me when I'll see you again it'll all be better.

All of my troubles they go away when you're on top of me loving me down, making sounds and it's so good I am screaming.

In each other's arms we're safe. Why don't we just stay that way? making love and loving all the time.

All of my troubles they go away when you're on top of me loving me down, making sounds and it's so good I am screaming
