

# Stoned

Macy Gray

I made it to my space ship  
And rising all day  
I don't know that I don't know  
So everything is going my way

And when you fly by, pick me up  
I got the giggles  
Baby, I am loads of fun  
So when you fly by, pick me up  
I'm stoned

Stoned, stoned, stoned

Silence, in the silence  
I can hear my friends  
Land on the Moon, on the sky maroon  
Singing all I do is win

So when you fly by, pick me up  
I got the giggles  
Baby, I am loads of fun  
So when you fly by, pick me up  
I'm stoned

Stoned, stoned, stoned, stoned, stoned

I stayed up all night just to look at you, baby  
To feel your lightening and your thunder  
And I smoke, I smoke but there's no forgetting you, babe  
Isn't that a wander, a wonder?

Where were you last night?  
I was waiting for you, you, you

Stoned, I'm stoned  
Stoned, I'm stoned  
Stoned, stoned, stoned, stoned, stoned...
