

10 West

Mad Caddies

Well I'm back out on the road again lost among the city lights
Were stepping it up harder just to make it to the show tonight
With yesterday's antics still playing in my head
Another day's upon us so let's do it all again
It's just another town another days another year
We got to wait 'til five o'clock before we crack a beer
Somewhere it's got to be 5 o'clock, yeh thays what we say
It's all just a game to keep ourselves sane
Drink smoke drink smoke this is what we do
Drink smoke drink somke playing it for you
Born to roam here we go yeah
Another city and another day
The road is my home all alone yeah
Out on the streets is where we gotta stay
Wellwe barely see the light of the sun with all the midnight fu
n
It's coming down on my head I feel it
But the music is part of my soul
So I jump back in headfirst my arms around it
Outside tonight I don't think there's anything going on around
here
