Mad Caddies

Well I'm back out on the road again lost among the city lights Were stepping it up harder just to make it to the show tonight With yesterday's antics still playing in my head Another day's upon us so let's do it all again It's just another town another days another year We got to wait 'til five o'clock before we crack a beer Somewhere it's got to be 5 o'clock, yeh thays what we say It's all just a game to keep ourselves sane Drink smoke drink smoke this is what we do Drink smoke drink somke playing it for you Born to roam here we go yeah Another city and another day The road is my home all alone yeah Out on the streets is where we gotta stay Wellwe barely see the light of the sun with all the midnight fu It's coming down on my head I feel it But the music is part of my soul So I jump back in headfirst my arms around it Outside tonight I don't think there's anything going on around here
