

the less i feel is the less i know
i don't mean to tell you so
cause now i've gone out in mind
and my mind aches the way you do
i just wanna see it through
cause all i have is when i go alone
the less i feel is the less on top
i don't mean to make you stop
when everything is going fine
the fort i build is where i die
but i don't mean to make you cry
but all i have is when i go away
i'll practice in my room
you'll watch the things that i do
i'll practice in my room
when i leave
girl don't you know i'm gonna miss you
the less i feel is the less on top
i don't mean to make you stop
now that i'm not by your side
cause all this time i'm wasting now
i just can't be headed south
got to do it in my own damn way
i'll practice in my room
you'll watch the things that i do
i'll practice in my room
when i leave
girl don't you know i'm gonna miss you
